## RESIDENTIAL TREATMENT FACILITY

### UNIQUE CARE .....

The trauma focused **Girls Residential Treatment Facility (GRTF)** provides the highest quality professional care and treatment for teenage girls, ages 12 to 18, who are experiencing behavioral issues and mental health problems. In addition, CHOR Youth & Family Services provides a fully accredited, flexible academic program so that youth do not fall behind in school while receiving care.

CHORYFS's 14-bed residential setting allows teens to focus on their mental health wellness under 24/7 supervision. Trained staff support the youth in working towards their goals for treatment using a trauma informed approach.

Through a mix of a weekly routine of individual, group, and family therapy, experienced and caring professionals challenge and guide each youth to heal from trauma, develop self-awareness, and grow skills to manage their behavior and mental health long term.

### STAFF TRAINING .....

New Employee Development is inclusive of classroom and direct experience. Included in the training are modules covering the Sanctuary Model of Care, First aid/CPR, medication administration and behavior shaping.

### EDUCATION PROGRAM .....

We understand that school can be a huge stressor for many of our residents. We work closely with each child's teachers and parents to find the best curriculum and setting (i.e., virtual, on-campus, alternate programming) to keep them on track and follow all IEP's. Our teachers work alongside other staff to ensure each child receives the attention and support needed to succeed academically.
